2002 THIRD QUARTER REVIEW

During the first three months of this year, this neighborhood experienced a 100% increase in **housebreaks** from 2001 and was a large part of the housebreak pattern that plagued the city. However, following key arrests made throughout the year, the pattern has diminished and housebreak levels have returned to normal levels with only 3 additional incidents reported when compared with the first nine months of 2001. Only three breaks have been reported during the past three months, one each in month. • There were four **street robberies** registered during the Third Quarter. The early August incident occurred after a two-month lull and concentrated between 800-110 Cambridge Street. Two incidents were purse snatchings when the suspects ran behind the victim, took the purse and fled. Over the past decade, Neighborhood #3 has averaged 15 street robberies per year. • **Larceny from motor vehicles** increased 133% from the second quarter, reporting 15 of the 28 incidents this year. Seven incidents occurred in mid to late August at the time these thefts peaked. The perpetrators concentrated the thefts overnight and smashed their windows to gain entry. • Two of the three **drug arrest** incidents occurred during the past three months. A Cambridge man was arrested when a tip was called in of a man selling prescription drugs out of a coffee shop. The second incident resulted in four Cambridge men arrested after the Special Investigations Unit observed a man sell 50 bags of heroin and upon search of his house, three additional men were arrested and over 40 grams of heroin was found in the home.
